

Proven and Effective Teaching Methodology

With almost twenty years of experience, we can confidently say that we know how to teach children English effectively. Of the four core linguistics skills, children should focus on the listening and speaking first to so that they can confidently express themselves. At about age four, children can develop reading skills and become independent and confident readers with the proper guidance.

We believe our combined courses Active English and Phonics & Reading are the perfect combination in helping children to learn English in the most effective and enjoyable way.

Active English

- Thematic approach based on everyday topics e.g. my hobbies, my family, Halloween
- Interactive play to encourage speaking
- Fun and stimulating activities e.g. Jolly Phonics flashcards, story-time, roleplay, etc.
- Resources include our own specially designed Jack & Jill AE booklets

Phonics & Reading

- Proven and systematic curriculum catered for the different developmental stages
- Adopting the Jolly Phonics synthetic phonics approach
- Systematic and stimulating stories to rapidly build-up children’s reading skills

Twice-a-week Benefits

Parents often ask, “How to rapidly build oral & reading skills for my kid?”

The key is repetition. Students coming twice a week are able to retain their knowledge, phonics skills and ride the learning curve to achieve remarkable progress. We recommend students to come twice a week with our highly attractive package.

我們於9月新學年推出了活學英語及拼音與閱讀的優惠組合，期望學生能在每週兩節的英語課堂中，強化英語能力。我們相信學習時間的增加並配合重溫環節，能有效提高學生英文溝通能力及鞏固拼音的基礎。
